Creation. Energy. New content: All is the best!

On the March 29-30, 2019, the V International Festival of Robotics, Programming and Innovative Technologies “ROBOLAND 2019” will be held in Karaganda.

The festival is organized by the Education Department of the Karaganda region with the support of the International Association of Sports and Educational Robotics, Kazdidac Association, sponsors and partners.

Karaganda meetings have become the largest platform in Kazakhstan for children and adolescents keen on new technologies. The ROBOLAND festival is a kind of barometer for the development of educational robotics.

The first festival was held in 2015. It was attended by 30 teams, and there were only 5 nominations. The third festival in 2017 gathered nearly 400 teams. More than 800 children and teenagers from Kazakhstan and Russia came to it, the competitions were held in 24 nominations. The fourth festival in has a record number of nominations - 32. About 1,500 children and teenagers took part in it, teams came from Kazakhstan, Russia, Kyrgyzstan and Poland.

The fifth, anniversary, festival changes its format. The organizing committee has chosen for competition 12 categories - the most interesting and entertaining. Three of them will become the premiere. Roboland-Friendship category is unique, it was developed by Karaganda specialists for the festival.

Qualifying competitions will be held in all cities and regions of the Karaganda region, as well as in various regions of Kazakhstan and Russia. In the finals will perform the strongest teams.

Will be organized RoboLandParty - the possibility of informal communication among peers and like-minded people.

An extensive business program with seminars, master classes and presentations from leading experts in the field of robotics in Kazakhstan and abroad is planned for trainers and teachers.

Viewers will not be passive watchers. They will be able to try to control the robot themselves. For them, the festival program includes shows and presentations.

The electronic system of registration and summarizing, the independent professional panel of judges, the exhibition of novelties of robotic products - all of these remains unchanged.
ROBOLAND 2019, March 29-30, 2019, Kazakhstan, Karaganda, Sports Complex «Zhastar».
