

**Accident prevention regulations in the “Roboland 2019”  
V International Festival of Robotics, Programming and Innovative  
Technologies**

**Venue:** “Zhastar” sport complex, 1, Kazakhstanskaya str., Karaganda, Kazakhstan

**1. Responsibility area of the team leader**

- The team leader is an adult citizen, a member of the team, that carries out the administrative management of the team, represents its interests before the Festival Organizers and other organizations, and also controls and is responsible for observing the safety and fire safety regulations of all team members. Team leader ensures the safety of team members in case of emergency

**2. Duties of the participants of the Festival:**

- Comply with p. 7.14, 7.15, 7.16 of the Festival Regulations, which is published on the official Festival website.

**3. Accident prevention regulations**

- Children under the age of 18 shall be accompanied by adults or in groups and teams accompanied by coaches, mentors or authorized persons.
- If there is a burning smell, smoke, fire or unusual sound, stop work immediately and inform the Head or the nearest Organizing Committee representative or a security officer.
- The Head or representative of the Organizing Committee is obliged to assess the situation and inform the security services for further decision on the evacuation and calling the fire department.
- Participants are required to comply with all requirements of security personnel.
- In case of poor health or an abnormal situation, immediately stop work and inform the Head or the nearest representative of the Organizing Committee.
- On the territory of the Festival there will be a doctor, to whom the participant of the event can turn in case of bad state of health or in case of injury.

**4. Fire and safety regulations.**

- The use of improvised extenders and splitters is prohibited.
- It is forbidden to leave, put and keep water, drinks or any other liquids on the tables of technical zones where there are electrical outlets or connections.
- Do not insert or unplug the power cord into the outlet or from the outlet with wet hands.
- Do not pull on the power cord (take only the plug cord with your hands), a wire may break and cause an electric shock.
- Do not touch or touch a bare electric wire.

- Do not extinguish ignited electrical appliances with water.
- Do not try to penetrate (open) the switchboard located on the territory of the Festival.
- Do not repair electrical appliances when they are on.
- Do not insert foreign objects into electrical outlets.
- The use of sharp tools is permitted only in the presence of managers or accompanying teams.
- Compliance with the order in the technical area is required! All things not related to the preparation of the robot for the race should be placed under the table. In case of non-compliance with the order by the team, the responsible persons may initiate the procedure of disqualification of the team for violation of the “Regulations on the Festival”.
- All robots and devices shall be made in such a way as to not cause any harm to people around them, other robots and devices or fields for competition.
- Items that are harmful to health, such as mercury switches or lead-containing parts, lithium-polymer batteries are prohibited to use
- Do not use the electrical grounding of the robot chassis on the playing field.
- Teams are not allowed to conduct any sea trials in technical zones using any method of controlling the robot. All tests should be carried out only on the training fields.
- Welding and use of professional cutting (drilling) tools on the territory of the Festival is prohibited.
- When working with a designer, it is important to keep track of the details, as they are often very small. You can not take the parts in your mouth, scatter on the desktop.

## **5. Emergency Protection**

- For the purpose of timely warning the participants of the Festival, guests and employees about the imminent danger of an emergency and the need to apply protective measures, announcements on the public address system are used, which all participants of the event must follow.
- It is necessary to listen to the emergency message, strictly and strictly follow the information contained therein, the established rules of behavior in the face of threats or emergency situations.
